

7th ACM SIGOPS Asia-Pacific Workshop on Systems (APSys 2016)

Call for Papers

Hong Kong, China

August 4-5, 2016

APSys is a vibrant forum for systems researchers and practitioners across the world to meet, interact, and collaborate with their peers from the Asia/Pacific region.

APSys 2016 hopes to build upon the success of previous APSys conferences, and put together a set of quality papers in computer systems. We solicit papers in the broad areas of computer systems, including (but not limited to) the following topics:

- Operating systems, their interaction with hardware architecture and programming languages, and vice versa
- Virtualization, including its novel applications
- File and storage systems
- Network systems including both wired and wireless networks
- Mobile, embedded and pervasive systems
- Cloud computing and data center management
- Systems for Big Data Analytics
- Distributed systems
- Internet of Things
- System energy characterization and optimization
- Testing and verification of computer systems
- Measurement, monitoring, and modeling
- Reliability, scalability, and fault tolerance
- Security and privacy
- Experience with deployed systems
- Application of interesting research ideas to computer systems, such as machine learning, stochastic modeling, new algorithms, ...

The workshop favors works with an experimental flavor such as measurement and prototyping.

Submission Guidelines

Submissions should be six or fewer pages in length excluding references, formatted in standard ACM two-column conference style with 10-pt font size. Reviewing will be double-blind: no author or affiliation information should appear in the submission.

The authors should additionally follow the best practice in order not to disclose their identities implicitly. A submission may present preliminary results, propose a new research direction, provide insightful retrospective, or offer a provocative viewpoint on an important systems topic. Papers will be selected based on their likelihood of generating insightful technical discussions at the workshop and influencing future systems research. Relevant attributes include originality, technical merit, clarity, and technical relevance. Accepted papers will appear in the proceedings of the workshop, which will be published in the ACM Digital Library. Consistent with standard scholarly practice, the authors should not have substantially similar work in review anywhere else.

Submissions can be made online at <https://apsys2016.rice.edu>

Important Dates

- Abstract due: May 13, 2016 (23:59 GMT)
- Submission due: May 20, 2016 (23:59 GMT)
- Notification to authors: June 23, 2016
- Shepherd deadline: July 7, 2016
- Camera-ready due: July 14, 2016
- Workshop: August 4-5, 2016

Organizers

General Chairs

- Heming Cui (University of Hong Kong, Hong Kong, China)
- Francis Lau (University of Hong Kong, Hong Kong, China)

Program Chairs

- Sorav Bansal (IIT Delhi, India)
- Lin Zhong (Rice University, USA)

Program Committee

- Varsha Apte (IIT Bombay, India)
- Rajesh Balan (Singapore Management University, Singapore)
- Yungang Bao (ICT, CAS, China)
- Ranjita Bhagwan (Microsoft Research-India, India)
- Florin Dinu (EPFL, Switzerland)
- Mainak Chaudhuri (IIT Kanpur, India)
- Ashvin Goel (University of Toronto, Canada)
- Dongsu Han (KAIST, Korea)
- Gernot Heiser (UNSW, NICTA, Australia)
- Asim Kadav (NEC Labs, USA)
- Taesoo Kim (Gatech, USA)
- Felix Xiaozhu Lin (Purdue University, USA)
- Yunxin Liu (Microsoft Research-Asia, China)
- Qiong Luo (HKUST, Hong Kong, China)
- Jian Ouyang (Baidu, China)
- Peter Pietzuch (Imperial College London, UK)
- Mahadev Satyanarayanan (Carnegie Mellon University, USA)
- Eric Schkufza (VMware USA, USA)
- Arvind Seshadri (IBM India, India)
- Guangyu Sun (Peking University, China)
- Lin Tan (University of Waterloo, Canada)
- Xi Wang (University of Washington, USA)

Steering Committee

- Lorenzo Alvisi (University of Texas at Austin, USA, Co-Chair)
- Haibo Chen (Shanghai Jiao Tong University, China, Co-Chair)
- Kenji Kono (Keio University, Japan)
- KyoungSoo Park (KAIST, South Korea)
- Robbert Van Renesse (Cornell University, USA)
- Mahadev Satyanarayanan (Carnegie Mellon University, USA)
- Junfeng Yang (Columbia University, USA)
- Yuanyuan Zhou (UC San Diego, USA)
